William R. Loughridge, Chief of Police

INVITATION FOR BIDS

Four 2027 Police Vehicles with Police Equipment and Graphics

Project: 2027 Police Vehicle Acquisition and Upfitting
Submission Deadline: Wednesday, December 2, 2026, at 11:00 a.m. Central Time
Public Bid Opening: Wednesday, December 2, 2026, at 11:00 a.m. Central Time
Department Contact: Captain Steven Gray
Telephone and Email: 573-308-1213 | sgray@rollacity.gov

The City of Rolla will receive sealed bids until the submission deadline stated above at the City Clerk's Office, Rolla City Hall, 901 N. Elm Street, Rolla, Missouri 65401. Bids will remain sealed until the public bid opening stated above and will then be publicly opened and read aloud at that location.

The City seeks four new 2027 police vehicles, police equipment and installation, and white vinyl door wraps and police lettering. The City will purchase four vehicles of one model, selecting either:

- 2027 Ford Police Interceptor Utility AWD, or
- 2027 Chevrolet Tahoe 4WD Police Pursuit Vehicle with the 9C1 Police Package.

Separate or Combined Bids

Vendors may submit bids for any one or more of the following portions:

Portion	Description
A	Four new police vehicles and trade-in allowances
B	Police upfit equipment, installation, and transfer of Department equipment
C	White vinyl door wraps and police lettering

Vendors are not required to bid all portions. Vehicle dealers, upfitters, and graphics companies may bid independently. Vendors may offer either vehicle model or submit separate proposals for both models.
The City reserves the right to award portions separately to multiple vendors or together to one vendor. Any combined-award discount or condition must be clearly identified. All four vehicles purchased will be the same model and have substantially identical equipment and graphics.

Bid Submission

Bids must be submitted in person or by mail in a sealed envelope. No digital, electronic, emailed, or faxed submissions will be accepted. Bids may be delivered in person to the City Clerk at Rolla City Hall, 901 N. Elm Street, Rolla, Missouri 65401, or mailed to: City of Rolla, Attention City Clerk, P.O. Box 979, Rolla, Missouri 65402

Bids must be received by the City Clerk by Wednesday, December 2, 2026, at 11:00 a.m. Central Time. Public opening is Wednesday, December 2, 2026, at 11:00 a.m. Central Time. The sealed envelope must identify:

- Bidder's name and address.
- Bid opening date and time.

- "Vehicle/Equipment Bids - 2027 Police Vehicle Acquisition and Upfitting."

The City of Rolla reserves the right to accept or reject any and/or all bids. It will be the City's intent to accept the low competent bid if it meets specifications and conditions. The City may award portions separately or together as provided in this solicitation.

Bids shall remain firm for sixty calendar days following bid opening.

City Instructions to Bidders

The following City purchasing-manual instructions apply to this solicitation. The required proposal form and Equipment Specification Sheets are included in this packet.

(1) Bids must be submitted on the "Bidder's Proposal" form only. Bids must be submitted in a sealed envelope, properly identified as "Vehicle/Equipment Bids". Attached to the Bid Proposal shall be the Equipment Specification Sheets properly filled out for the items bid.

(2) The bid must be filed with the City Clerk prior to the announced bid opening date and time.

(3) The City of Rolla reserves the right to accept or reject any and/or all bids.

(4) It will be the City's intent to accept the lowest competent bid if it meets specifications and conditions.

(5) Bidders are advised that the City of Rolla shall consider prior substandard goods or prior substandard service delivery to the City as a criterion for bid rejection.

(6) Bids relatively equal in cost and specifications may go to the local bidder (given they meet all other conditions).

(7) All bids shall meet or exceed specifications.

(8) Alternate bids may be considered, provided all specification differences are clearly indicated and contain justification statements. The City of Rolla shall be the sole judge as to the suitability of the service or equipment offered for the intended purpose from the alternate bid.

(9) Any exceptions to these terms or conditions or deviations from written specifications shall be shown in writing and attached to the Bidder's Proposal.

(10) Bidders are cautioned to verify their proposal before submission, as requests for amendments, withdrawals, or proposals, if received by the City after the time specified for opening, will not be considered.

(11) In the event of discrepancies between Bidder's "Per Unit" price quotation and "Extended Total" quotation, the "Per Unit" quotation shall prevail.

(12) Bidders must be factory-authorized dealers for the equipment, service, and parts of the items they are bidding.

(13) Local bidders shall be defined as bidders in Rolla and the area surrounding Rolla for a five-mile radius from the city limits.

(14) For this solicitation, bids must be submitted in person or by mail in a sealed envelope. No digital, electronic, emailed, or faxed submissions will be accepted. This solicitation-specific requirement replaces the purchasing manual’s provision allowing faxed bids with prior approval.

Submission deadline and public bid opening: Wednesday, December 2, 2026, at 11:00 a.m. Central Time. Bids delivered in person or by mail must be received by the City Clerk by that deadline.

For separate awards, factory authorization applies to the equipment, service, and parts included in the portion bid. Submit documentation of the applicable authorization with the proposal. Participation in one portion does not require bidding the other portions.

General Requirements

Bidder Responsibilities

Bidders shall submit bids on the Bidder's Proposal form in this packet only, complete the applicable Equipment Specification Sheets, and attach them to the proposal. Bidders may attach supporting literature and price details but shall not substitute a vendor quotation for the required proposal form. Complete only the portions and vehicle options being bid.

Each bid must include sufficient manufacturer literature, product information, and installation details to establish compliance with the applicable requirements.

Equivalent upfit products are acceptable when they meet or exceed the specified function, quality, capacity, compatibility, and performance. References to brands or products establish the intended equipment standard and do not require use of a particular supplier.

Complete Pricing

Pricing shall include all equipment, materials, mounting hardware, wiring, connectors, programming within the awarded scope, labor, supplies, freight, delivery, and other costs necessary to complete the portion being bid.

Any transportation necessary to fulfill the awarded scope shall be included in that portion’s price. No separate transportation pricing is requested, and no additional transportation charges may be added after award.

Vendors shall identify any work requiring completion by another awarded vendor or the Department. Separate awards shall be coordinated with the Department to ensure a complete installation.

Delivery and Scheduling

Bidders shall state anticipated delivery or completion time following receipt of a purchase order and, where applicable, availability of the vehicles and Department-supplied equipment.

No mandatory completion date is established. Vendors shall identify significant scheduling dependencies and coordinate vehicle delivery, upfitting, graphics installation, equipment transfers, and trade-in surrender with the Department.

Warranty Information

Bidders shall provide written warranty information for the portions offered, including:

- Vehicle warranty coverage.
- Upfit equipment warranty coverage.
- Installation workmanship warranty coverage.
- Vinyl material, lettering, and graphics installation warranty coverage.

Warranty information shall identify duration, applicable mileage limits, exclusions, the event that starts coverage, and the party responsible for warranty service.

Inspection and Acceptance

Vehicles and completed work are subject to Department inspection and operational testing before final acceptance. Vendors shall correct deficiencies within their awarded scope before final acceptance.

Completed installations must fit the selected 2027 vehicle, preserve required vehicle safety functions, and permit normal operation and servicing.

Portion A New Police Vehicles

Equipment Specification Sheets: Enter **Comply, Exception,** or **Not Offered** in each applicable Vendor Response field. Explain every exception in writing and attach supporting documentation and alternate-bid justifications. Return completed sheets with the Bidder's Proposal.

Common Vehicle Requirements

Requirement	Specification	Vendor Response
Quantity	Four vehicles of one selected model	
Model year	2027	
Condition	New and unused	
Vehicle type	Factory police pursuit vehicle	
Exterior color	Factory black	
Flooring	Vinyl flooring in the first and second seating rows	
Keys and remotes	Four fully programmed keys/remotes per vehicle, including all applicable programming	
Standard equipment	Manufacturer’s standard equipment for the offered police package, subject to disclosed police-package changes and specified options	
Factory cameras	Factory backup cameras and other standard vehicle camera features retained	
Documentation	Manufacturer build specifications and list of included options	

Ford Vehicle Requirements

2027 Ford Police Interceptor Utility AWD

The Ford proposal shall meet the following requirements:

Item	Requirement	Vendor Response
Drivetrain	All-wheel drive	
Engine	3.0L EcoBoost V6	
Exterior	Black; bidder shall identify the manufacturer’s paint name and code	
Wheels	Black police wheels with center caps	
Flooring	Vinyl; carpet deleted	
Rear factory seating	Vinyl where retained; final seating subject to the single-prisoner upfit	
Spotlight	Driver-side LED spotlight	
Remote start	Included	
Police features	Police idle, dark-car capability, global lock/unlock, radio suppression bonds, and underbody deflector plate	

Item	Requirement	Vendor Response
Equipment preparation	Siren/speaker prewiring and headlamp/taillamp preparation for the offered police vehicle	
Other listed features	Rear auxiliary air conditioning, heated mirrors, reverse sensing, blind-spot monitoring, and police perimeter alert	

Bidders shall identify any deviation from these requirements and confirm availability and compatibility of the proposed 2027 equipment.

Chevrolet Vehicle Requirements

2027 Chevrolet Tahoe 4WD Police Pursuit Vehicle

Item	Requirement	Vendor Response
Model	Tahoe 4WD Commercial with 9C1 Police Package	
Engine	5.3L EcoTec3 V8	
Transmission	10-speed automatic	
Exterior	Black	
Police equipment	Factory police-rated suspension, brakes, cooling, charging system, and electrical provisions associated with the 9C1 package	
Wheels and tires	Police-package 20-inch steel wheels and pursuit tires	
Spare	Full-size spare tire and wheel	
Flooring	Vinyl flooring; no carpet or carpet mats	
Spotlight	Driver-side spotlight	
Interior lighting	Red/white front auxiliary dome light	
Remote start	Included	
Equipment preparation	Grille-light and siren-speaker wiring, horn/siren circuit wiring, and radio suppression package	
Third row	Deleted	
Front plate mounting	Included	

The seating and console arrangement must accommodate the specified police console and single-prisoner transport equipment. Bidders shall disclose any necessary factory seating changes.

Trade-In Vehicles

The City intends to trade in existing vehicles as part of the vehicle purchase.

Nine trade-in vehicles are listed in Appendix A. All nine vehicles run. Maintenance records are available upon request.

Bidders are strongly encouraged to inspect each vehicle in person before submitting a bid. Vehicles are available for inspection by appointment at the Rolla Vehicle Maintenance lot, 2301 N. McCutchen Drive, Rolla, Missouri. Contact Captain Steven Gray at 573-308-1213 or sgray@rollacity.gov to arrange an appointment.

Vehicle bidders shall separately state:

- Price per new vehicle.
- Total purchase price for four new vehicles.
- Allowance for each trade-in.
- Total trade-in allowance.
- Net vehicle purchase price after trade-ins.

Remove department radios, docking stations, flashlight chargers, and portable radio battery chargers for transfer before the applicable trade-in vehicles are surrendered. Trade-in surrender shall be coordinated with the Department and the awarded upfitter.

Portion B Police Upfit Equipment and Installation

Equipment Specification Sheets: Enter **Comply, Exception**, or **Not Offered** in each applicable Vendor Response field. Explain every exception in writing and attach supporting documentation and alternate-bid justifications. Return completed sheets with the Bidder's Proposal.

Common Equipment Standard

Each vehicle shall receive a complete installed police upfit. Ford and Chevrolet proposals shall provide comparable equipment functions and coverage, with vehicle-specific components as necessary.

The common requirements below apply to either vehicle model. Proposed products shall provide comparable functions and coverage on both models.

Bidders shall identify proposed manufacturers, models, quantities, and any deviations.

Equipment	Requirement Per Vehicle	Vendor Response
Emergency lightbar	Police LED lightbar with appropriate vehicle mounting	
Supplemental warning lights	Front/grille, mirror or equivalent side-facing, rear side-window, rear upper/spoiler, rear license-plate, lower-side/running-board, and open-liftgate warning coverage	
Lighting controls	Integrated lighting and siren controls, expansion modules, wiring, and connections. If a remote controller is furnished, also provide a control head mounted in the center console that operates both emergency lights and siren. A remote alone does not satisfy this requirement.	
Vehicle-to-vehicle synchronization	Provide a synchronization module and all required hardware, wiring, and programming to synchronize emergency warning lights between equipped patrol vehicles operating in close proximity. Verify compatibility among all four new vehicles.	
Siren	Electronic siren, controller, speaker, and mounting hardware	
Low-frequency warning	Rumbler, Whelen HOWLER, or equivalent low-frequency siren system and mounting hardware	
Console	Vehicle-specific police equipment console compatible with the Department radio and required controls	
Console accessories	Armrest, double cup holder, locking accessory storage, and open accessory storage	
Prisoner transport	Single-prisoner transport configuration with appropriate partition, rear cargo separation, replacement transport seating, restraints, door panels, window barriers, and applicable door/window controls	
Rifle rack	Locking rack for one Department rifle, with compatible mounts	

Equipment	Requirement Per Vehicle	Vendor Response
Push bumper	Police push bumper with required mounting hardware and integrated warning lights or equivalent front warning coverage	
Rear storage	Locking rear cargo drawer system, TruckVault or equivalent, compatible with the prisoner transport installation	
Electrical system	Fused power distribution, grounding, battery protection or controlled shutdown, and necessary wiring	
Cargo lighting	Auxiliary lighting for the rear cargo/work area	
Installation	Complete mounting, wiring, configuration, and functional testing	

Fender wraps and headlight wraps are excluded.

Final emergency-light configuration, control assignments, and flash patterns will be coordinated with the Department before final programming and acceptance.

Single-Prisoner Transport

The transport installation shall be designed for one prisoner and compatible with the selected vehicle.

Bidders shall describe the arrangement, including the prisoner seating position, partition layout, restraint system, rear cargo separation, door panels, window barriers, and rear door/window operating restrictions.

Equipment shall be compatible with the rifle rack and rear cargo drawer system.

Rifle Storage

Provide a locking rack for one rifle. The vendor shall confirm compatibility with the Department's rifle before ordering or installation.

Department rifle: Black Rain Ordnance SPEC15 with an 11.5-inch barrel. Verify fit for the complete rifle and attached accessories before installation.

Rear Cargo Storage

Provide a secure single-drawer rear cargo storage system, TruckVault or equivalent, with a locking mechanism and key override or equivalent secure access.

The system shall fit the selected 2027 vehicle and function with the prisoner partition, rifle rack, and other installed equipment.

Department Equipment Transfers

The upfitter shall remove the Department's existing radios, docking stations, flashlight chargers, and portable radio battery chargers from the designated trade-in vehicles and reinstall them in the four new vehicles. Provide secure mounting, compatible power connections, wiring, necessary brackets and hardware, and operational testing for all transferred equipment. Include all removal and reinstallation costs in the upfit price. The Department will identify the donor vehicles and approve equipment placement before installation.

The work shall include necessary removal, mounting hardware, wiring, connectors, installation, and operational testing. Any additional components required for compatibility shall be included in the bid.

Radio programming is excluded.

Radios will be supplied by the Department. The scope is removal and installation only; radio programming is not required.

Existing docking stations: Gamber-Johnson model 7160-0487-02 for Panasonic FZ-G1, keyed alike, dual RF. Reuse these Department-supplied docking stations. Existing Tahoe vehicle brackets may not fit the Ford Police Interceptor Utility. Provide all vehicle-specific mounting brackets, supports, power connections, wiring, and

hardware necessary for the selected model. Verify compatibility before installation and include all associated costs in the bid.

Removal and installation shall be coordinated with the Department to limit vehicle downtime and support trade-in surrender.

Camera Systems

No aftermarket police recording camera system is required. Factory backup cameras and other standard vehicle camera features shall remain operational.

Portion C White Vinyl Door Wraps and Police Lettering

Equipment Specification Sheets: Enter **Comply, Exception,** or **Not Offered** in each applicable Vendor Response field. Explain every exception in writing and attach supporting documentation and alternate-bid justifications. Return completed sheets with the Bidder's Proposal.

Provide and install white vinyl door wraps and police lettering on all four vehicles.

Item	Requirement	Vendor Response
Door wraps	White vinyl applied to Department-designated door surfaces	
Police lettering	Applied at Department-designated locations on the doors, fenders, rear liftgate, and front and rear bumpers	
Layout	Adapted to the selected Ford or Chevrolet model	
Reference	Reference photographs in Appendix B; adapt the design to the selected model	
Approval	Department approval of the proposed layout before production and installation	
Included work	Materials, surface preparation, production, and complete installation	
Warranty	Written material and installation warranty information	

Match the reference design: white front and rear door wraps on both sides; outlined POLICE lettering with Rolla above on the doors; Department badge graphics on front fenders; POLICE on the rear liftgate; Department-assigned unit numbers at the front bumper corners; and rear decals shown in the reference photos, including IN GOD WE TRUST. Include markings at Department-designated front and rear bumper locations. Unit numbers will be assigned by the Department; do not reproduce the example number 405. Final artwork, dimensions, colors, and placement require Department approval.

Graphics shall not interfere with lights, cameras, sensors, license plates, or other required vehicle equipment.

Bidder's Proposal

Business Name: _____
Address: _____
City, State, ZIP: _____
Contact Name: _____
Telephone: _____
Email: _____
Portions Offered: [ ] A Vehicles [ ] B Upfitting [ ] C Graphics
Vehicle Model Covered by This Proposal:
[ ] 2027 Ford Police Interceptor Utility AWD
[ ] 2027 Chevrolet Tahoe 4WD 9C1 PPV
Submit a separate proposal and completed applicable specification sheets for each vehicle model offered. Vendors may bid one or more portions independently.

Pricing

Complete only the portions offered. All prices shall include the complete applicable scope.

Portion	Price Per Vehicle	Total for Four
A New vehicles before trade-ins	$_____	$_____
B Complete police upfit and equipment transfers	$_____	$_____
C White door wraps and police lettering	$_____	$_____

Total trade-in allowance, Portion A: $_____
Net vehicle price after trade-ins: $_____
Combined-award discount, if offered: $_____
Total offered price after applicable trade-ins and discounts: $_____
Complete the individual trade-in allowance form in Appendix A. Identify any conditions attached to a combined-award discount.

Delivery and Completion

Anticipated vehicle delivery time: _____
Anticipated upfit completion time: _____
Anticipated graphics completion time: _____
Scheduling dependencies: _____

Required Attachments

For the portions offered, attach the completed Equipment Specification Sheets and the following:

- Vehicle build specifications and factory options.
- Upfit equipment list identifying manufacturers, models, and quantities.
- Description of the single-prisoner transport arrangement.
- Warranty coverage, duration, and exclusions.
- Written exceptions, substitutions, exclusions, or award conditions; justification statements for alternate bids; and documentation of applicable factory authorization.
- Individual trade-in allowances, where applicable.

Exceptions: [ ] None [ ] Attached

Bidder Certification

The undersigned certifies that the complete bid documents have been reviewed; that all exceptions and conditions have been disclosed; and that the prices offered include all equipment, materials, labor, installation, delivery, and other costs necessary to complete the portions bid.

Appendix A Trade In Vehicle Schedule

All nine vehicles run. Maintenance records are available upon request. In-person inspection is strongly recommended. Inspection is by appointment at the Rolla Vehicle Maintenance lot, 2301 N. McCutchen Drive, Rolla, Missouri. Contact Captain Steven Gray at 573-308-1213 or sgray@rollacity.gov.

Condition information below reflects the Department's reported knowledge. Mileage is as reported and may change before surrender.

No.	Vehicle and markings	VIN and mileage	Reported condition
1	2015 Dodge Charger White, unmarked	2C3CDXKT4FH929229 62,835 miles	No known mechanical issues.
2	2018 Dodge Charger Black and white, marked	2C3CDXKT1JH139914 70,890 miles	No known mechanical issues.
3	2012 Dodge Charger White, unmarked	2C3CDXAT0CH172598 90,247 miles	No known mechanical issues; some trim paint peeling.
4	2017 Ford Police Interceptor Utility Black and white, marked	1FM5K8AT2HGB71838 77,242.5 miles	No known mechanical issues.
5	2016 Dodge Charger Black and white, marked	2C3CDXKT4GH123392 41,609 miles	No known mechanical issues.
6	2018 Ford Police Interceptor Utility Black and white, marked	1FM5K8AT4JGA58382 87,805.2 miles	No known mechanical issues.
7	2016 Ford Police Interceptor Utility Black, unmarked	1FM5K8AT2GGB97077 100,495 miles	No known mechanical issues.
8	2018 Ford Police Interceptor Utility Black and white, marked	1FM5K8AT2JGA58381 87,069.4 miles	No known mechanical issues.
9	2017 Ford Police Interceptor Utility Black, unmarked	1FM5K8AT0HGB71837 102,787 miles	Rear seat missing; check engine light on, cause unknown.

Appendix A Individual Trade In Allowances

Portion A bidders shall provide an allowance for each vehicle below. Carry the total to the vendor pricing form.

Vehicle No.	VIN	Trade In Allowance
1	2C3CDXKT4FH929229	$_____
2	2C3CDXKT1JH139914	$_____
3	2C3CDXAT0CH172598	$_____
4	1FM5K8AT2HGB71838	$_____
5	2C3CDXKT4GH123392	$_____
6	1FM5K8AT4JGA58382	$_____
7	1FM5K8AT2GGB97077	$_____
8	1FM5K8AT2JGA58381	$_____
9	1FM5K8AT0HGB71837	$_____
	TOTAL	$_____

Appendix B Graphics Reference Photos

Match the illustrated design, adapted to the selected vehicle model. Department approval is required before production. Unit numbers will be assigned by the Department.

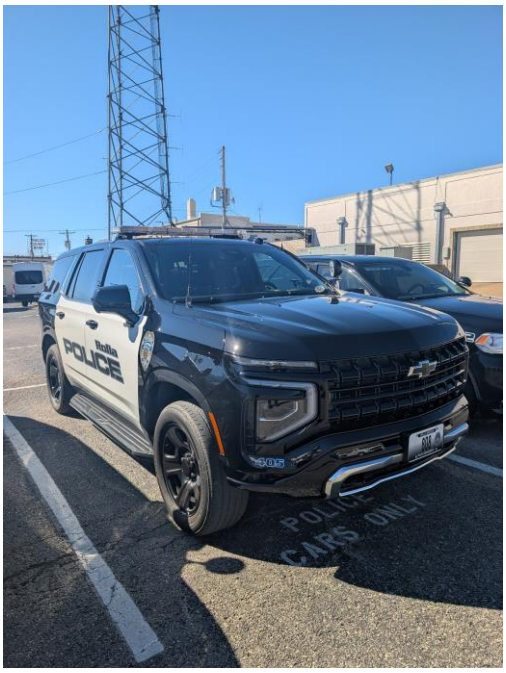

Rear liftgate lettering and rear decals

Passenger side door wrap and graphics

Appendix B Graphics Reference Photos Continued

Match the illustrated design, adapted to the selected vehicle model. Department approval is required before production. Unit numbers will be assigned by the Department.

Front and passenger side graphics

Front and driver side graphics
