Temporary Freestanding Signs: A freestanding sign that is not anchored in the ground or supported by a structure that is anchored in the ground or a freestanding sign that is easily removed from the ground by hand, such as h-frame lawn signs.  2. Ground Sign (Also known as a monument sign): A sign permanently affixed to the ground at its base, supported entirely by a base structure, and not mounted on a pole or attached to any part of a building.

 4. Wall Sign: A building-mounted sign, which is either attached to or displayed on an exterior wall in a manner parallel with the wall.

**Quantity:
(Max.)** One wall sign is permitted on each building and one ground/pole sign is permitted per entrance/exit to a street or, in the case of a subdivision, per entrance/exit to the subdivision. An unlimited amount of temporary freestanding signs is permitted if the sign area provisions are met.

Messaging: Noncommercial speech is considered an on-premises message. There are no time limits for on-premises messaging and it can be displayed on any type of sign. Commercial speech can be an on-premises message or it can be an off-premises message. On-premises messages relate to an individual business, product, service, or event that is sold, offered, or conducted on the same property where the sign is located. Off-premises messages are ones that direct attention to a specific business, product, service, event, or activity about something that is not sold, produced, or conducted on the premises upon which the sign is located. Off-premises messaging is limited to 14 days per quarter of a year and shall only be displayed on temporary freestanding signs.
