

**White Dogwood Trees** (*Cornus florida*) are popular ornamental trees known for their stunning spring blooms and vibrant fall colors, making them a versatile addition to any landscape.

White Dogwoods are deciduous trees that typically grow to a height of 15-25 feet with a spread of 20-25 feet.

These trees flourish in partial shade to full sun and prefer well drained, moist, slightly acidic soil.

The Dogwood Tree grows approximately 1-2 feet per year.

Did you know that the Dogwood is the official Missouri State tree?

The berries that grow on the Dogwood tree are not only aesthetically pleasing but serve as a vital food source for at least 36 bird species.
